Q: Tower of Hanoi
Python's Tower of Hanoi Solver I've come across a question on my book on Tower of Hanoi, which

asks for 'A Python Tower of Hanoi Solver', the solver should accept the number of discs, and output the number of moves to make the puzzle. I would appreciate some input on where to go with this project, what algorithm/software packages to use etc In the follow-up question here is the Hanoi question in Python, where I'm at

```
