I would recommend this program to everyone, if you're looking for a reliable way of printing your art work. The program has helped me a lot in the printing industry, and I couldn't wait to share it with . May 22, 2019 Overall I'm happy with my print store It hasn't been fun to use it for much of the more complex stuff as it's so slow and I haven't really got much mileage out of it, but I really like the way it was written and I like the print store interface. On the other hand when I'm doing things like putting up prints or just collecting the right accessories for a print I like that it lets me have my 'one click' options for things like making a set of prints and changing sizes, so there is a bit of extra work in the background. My only wish was that my settings could also be saved in the cloud so they can be accessed when my account is in a different country. . Jun 23, 2018 I bought this printer, which I have been using for 2 years. . I am currently selling minilab printers and printers that work with Ez-Print and EZ.Net. You can check my prices . I would recommend this printer to everyone as it is the only printer that prints at the quality of a high-end . Nov 10, 2019 The product is amazing. It takes less time and its easy to use. A problem for me is that there is no support. I wish they can know all the problems regarding the software. Dec 15, 2019 The software is great but the software update is complete shit. At least for me it is a lot of problems I had many customer facing in the stores with this software and the next day they couldn't change their default settings and they never returned nor I heard from them in a week. I had one that I couldn't figure out how to change the default size of the canvas or how to make it bigger and she wanted me
