Will you survive the Final Destination? In the summer of 1991, United States military forces drop an atomic bomb on the small town of Conover, Wyoming, forcing many local residents to flee their homes. They took refuge in the fire-proof mountain retreat known as the "Final Destination". After successfully evacuating, the residents of the town were unaware that an even worse fate awaited them. Two years later, on the opening night of the highly anticipated Final Destination horror film, a vampire-like creature appeared at the theatre, lurking in the shadows. The creature's presence was all that remained of the town's most horrifying event. Strange, ornate murals of a blood-soaked face appear in the community's abandoned buildings. Unexplained sightings of the strange and deadly new animals are reported. And human sacrifice is part of the daily bread. The Final Destination Screensaver will immerse you into the world of the Final Destination films. The Final Destination Screensaver features:

- Realistic maze graphics with animated fantasy setting
- Interactive content: make objects appear or disappear
- Dynamic effects

"The soul of Final Destination is the icon, the same haunted ship it's been since the beginning. It bears witness to all the lives that have ever been lost on sea;
