Selective File Formats You may also be familiar with Selective File Formats (SFF) or FXF. This is a file extension used to store digital files in separate locations, such as on your hard drive, online on a disk server, or burned to a CD or DVD disk. It is the most obvious and the most common form of storing data for images.

Photos are usually stored in .jpg files. However, many other imaging programs also can save images in .jpg files. For example, PhotoShop also saves its images in .jpg format. Various SFF file formats allow you to save documents or other digital files in multiple formats within the same file. You can use Photoshop to create, edit, and save digital files in multiple formats at the same time. # SAVING FILES AS A DIGITAL PDF I save my files in JPEG format with more or less the quality as the camera does capture them. As I said in the previous chapter, I shoot at a lower quality setting because it takes

Plot and Switches Plot and Switches is an original one-hour radio drama serial produced by the BBC, first aired on BBC Radio 4 in September 1977. It was written by Terry Nation, and starred Janette Tough as Elvira Bonner, Jeremy Clyde as the Narrator, Robin Howlett as Henry Rimmer, Roy Barraclough as Commissioner Majumdar, and Dermot Edwards as Inspector Oxley. Background The series was one of a number of programmes commissioned by the BBC in the early 1970s for its second medium-wave band. Nation had also previously broadcast a radio play version of the same story called The Screamers in 1971, produced by the BBC and starring Laurie Brett. Titled Return of the Screamers, it was about a man searching for his kidnapped son, and was also broadcast in the same month. Commission Commissioned to be written by Nation and produced by Derek Jackson, the two-part project was first broadcast as a one-hour, 45-minute airing from 13 October to 3 November 1977. It was one of a series of BBC radio broadcasts commissioned by Radio 4 in the 1970s, including some of the most popular series of the time including The Hitchhiker's Guide to the Galaxy (1978), George and the Dragon (1979), The Hitchhiker's Guide to the Galaxy (1978) and Doctor Who (the Fourth Doctor's first full-length serial, 1981). It was notable for having an all-female cast, and the first radio series to feature a transsexual character, Elvira Bonner. Premise On a dark, wintery night, a man called Henry Rimmer climbs out of the hatch of his spaceship and goes to collect a reward from an insurance company for returning his ship, the Smiler. Whilst returning to his ship, he encounters a spaceship piloted by a woman named Elvira Bonner who claims to have been lost. They both traverse the surrounding countryside, meeting a number of eccentric people, and eventually land on a spaceship in an abandoned building. As they struggle to get out of the building, both ship and land are crashed by a police motor cycle, and the police become involved. Characters Henry Rimmer – a man who has two moods and two personality – the "happy-go-lucky" Rimmer, and the serious, paranoid Rimmer Elvira Bonner – a woman who has two moods and
