Beauty and strength. I was born a Tarnished, a dark elf of the dark elves. I was cursed with dark magic. The one who planted this curse on me was my mother. My mother was a beautiful Tarnished in the dark elves... ...but the men around her knew nothing of her power. As a young child, I was raised to use my dark magic. I did everything I was told, and had no resistance to my mother's training. My power was like a bad gem that was slowly released from her body. My father died when I was a teenager. After that, my mother disappeared to a distant land. As the years went by, there was nothing I could do to find her. One day, I realized she had fled away because of me. After that day, no one knew anything of my mother's whereabouts, and my father had already been dead for two years. At that moment, I wanted to die. ...but then, my mother came back.

By all accounts, we are very pleased with the development phase for the Nintendo Switch version. The game will not just be available on the Nintendo Switch, but will also be available on smartphones and tablets as well as other platforms. Video games and smartphones are popular. If I could offer a gift to the world tomorrow, it would be that opportunity to have a night's sleep indoors. If you're being chilly or shivering, well, remember it's night time. You may have a hot drink or cocoa and a blanket. "I only wish that my home were warm. But then, I would have been able to stay warm all night." -- Robert Louis Stevenson This image is one I have
