## What's New In?

Counter Clock is an application designed to help you to remember important events. You can easily choose a timer between 1 hour or 15 minutes. The countdown can be used to ensure you will get to your important event on time. This... Solutions Story The German IT company from Berlin, named SolutionsStory, wants to bring more

to mobile. They have made a research that showed the 9 out of 10 employees on the road have a smartphone, which is just one step away from having a tablet. So they have created a solution called “SensoryLink”. SensoryLink is a wireless sensor that attaches to the glove of a smartphone. A simple bluetooth connection will put it in touch with the different apps you use. SensoryLink understands the notifications you use to find the best solution. “Our SensoryLink solution allows you to place sensors in your existing apps, in a way that helps users achieve the most out of their smartphone experience.

SensoryLink understands the notifications you use to find the best solution. It helps you find a great solution to the challenge you face on the road today.” says Sebastian Thörner. SensoryLink is available for Android and iOS. It is being used for many companies like Starwood Hotels, Zalando and Axel Springer. See the SensoryLink demo at: [About SolutionsStory](#) SolutionsStory is a technology company based in Berlin, Germany.
