## **Falling Snow Screensaver [32|64bit]**

Falling Snow Screensaver is a lightweight and easy to handle software solution whose main role resides in decorating your computer desktop, whenever you step away from it, even for just a short while. Colorful and attractive appearance The program experiences a quick and easy installation process, with no particular events, after which you can customize its functioning from the 'Personalize' option of your Windows context menu. Falling Snow Screensaver does not feature that many adjustable options, but it does allow you to mute the sounds, which can at times prove useful. Quickly set yourself in the mood for Christmas with a season-appropriate screensaver As the name of the application suggests, it displays an animated winter scenery, to get you in just the right mood for Christmas, while also trying to make up for the lack of snow in your area, when the holidays are approaching. Whether you are stuck at the office and want to relax in front of a festive landscape or you want your computer to display a more celebrative appearance, whenever you take a break from your work, Falling Snow Screensaver can supply just that. The utility will displays a cartoon-like winter landscape and some Christmas decorations, after a user-defined period of inactivity. In addition, it serves the double purpose of hiding the window or application you had been working on, thus preventing others from spying on you. A fun winter-themed desktop decoration In short, Falling Snow Screensaver is a useful and pleasant-looking desktop enhancement tool, which you can rely on to bring your PC into the holiday spirit, be it at home or at the office. 0.0 Ahmed Saad 13 Nov 2018 The best Screen Saver for PC and all windows versions. ## **Falling Snow Screensaver Crack+ Keygen Full Version**

Falling Snow Screensaver is a Windows screensaver application whose main role is to decorate your desktop with an attractive and colorful scenery, whenever you take a break from your work, even for just a short while. Some of the exciting features provided by Falling Snow Screensaver are: \* A Christmas seasonal animation is displayed. \* A snow-like appearance is created. \* It does not use large amount of system resources. \* It can be used as a desktop screensaver or live wallpaper. \* Display various objects such as snowflakes, trees, Santa Claus, and a star. \* It can be set to start and stop automatically. \* You can choose between a left-right and a right-left screen rotation. \* You can specify the number of minutes the screensaver will be active, or you can leave it active for all the time. \* You can choose between on and off screen mode, or you can watch it as a live wallpaper. \* A music player can be used to listen to Christmas carols, Christmas melodies and white noise. \* The screensaver can be used for a game or for relaxing. \* You can set the speed and the volume of the music. \* You can choose between an automatic or a manual screensaver. \* The music player can be used to play any sound file. \* You can choose between English and Spanish languages. \* You can mute or turn off the music. \* You can open the screensaver preferences from the system context menu or from the 'Personalize' option of your Windows context menu. You can find more information about how to use the screensaver, and how to activate it in the Help file. A complete customizable solution One of the main advantages of the program is its ability to provide you with a customized Christmas experience, in which you can choose from a wide collection of options and features, right from the screensaver's settings dialog. You can, for instance, choose a seasonal animation or an animated candle, which can be used in combination with the entire soundtrack of Falling Snow Screensaver. You can also choose among a number of randomly appearing colored falling snowflakes and white clouds, as well as a number of snow-like Christmas decorations, to create the very appropriate Christmas environment. How to use it: 1. Install the program on your computer. 2. When the screensaver is set to start automatically, let it
