Luxco is a one-stop shop for all your interior design needs. Design, browse and buy furniture, and get detailed product specifications and reviews.1. Field of the Invention The present invention relates to an input terminal apparatus for a digital television, a digital versatile disc (DVD) player, a video camera, a car navigation system, and other similar equipments, capable of receiving a video signal or a digital audio signal from outside or transmitting a video signal or a digital audio signal to outside, which converts the video signal or the digital audio signal to a digital signal for outputting to the outside. 2. Description of the Related Art A digital television (TV) and a DVD player each have a high-frequency circuit for transmitting and receiving high-frequency signals and for digital processing and controlling signals, which are generally formed by a LSI circuit. When these equipments and similar equipments are connected to each other through a communication line, a connector or a coaxial cable, the high-frequency circuit, which is formed by an LSI circuit, is connected to the connector or the coaxial cable via a wire bonding. In the case of connecting an input

terminal in the high-frequency circuit of the digital TV to a terminal in a digital audio player by wire bonding, however, there has been a problem that a difference in inductance between a terminal on the digital

Indian Companies And Their Taglines Pdf Download
